

# **Starksboro Community Survey**

## **Results Summary**

**Survey Conducted July 2019**

**Jerusalem Community Center Committee  
(Committee appointed by the Starksboro Selectboard)**

## **Starksboro Community Survey Results Summary**

As part of its charge from the Selectboard, the Jerusalem Community Center Committee developed and conducted a Starksboro Community Survey in July 2019 to help assess the needs of the community related to replacement of Fire Station #2 and renovation/preservation of the Jerusalem Schoolhouse for use as a community center.

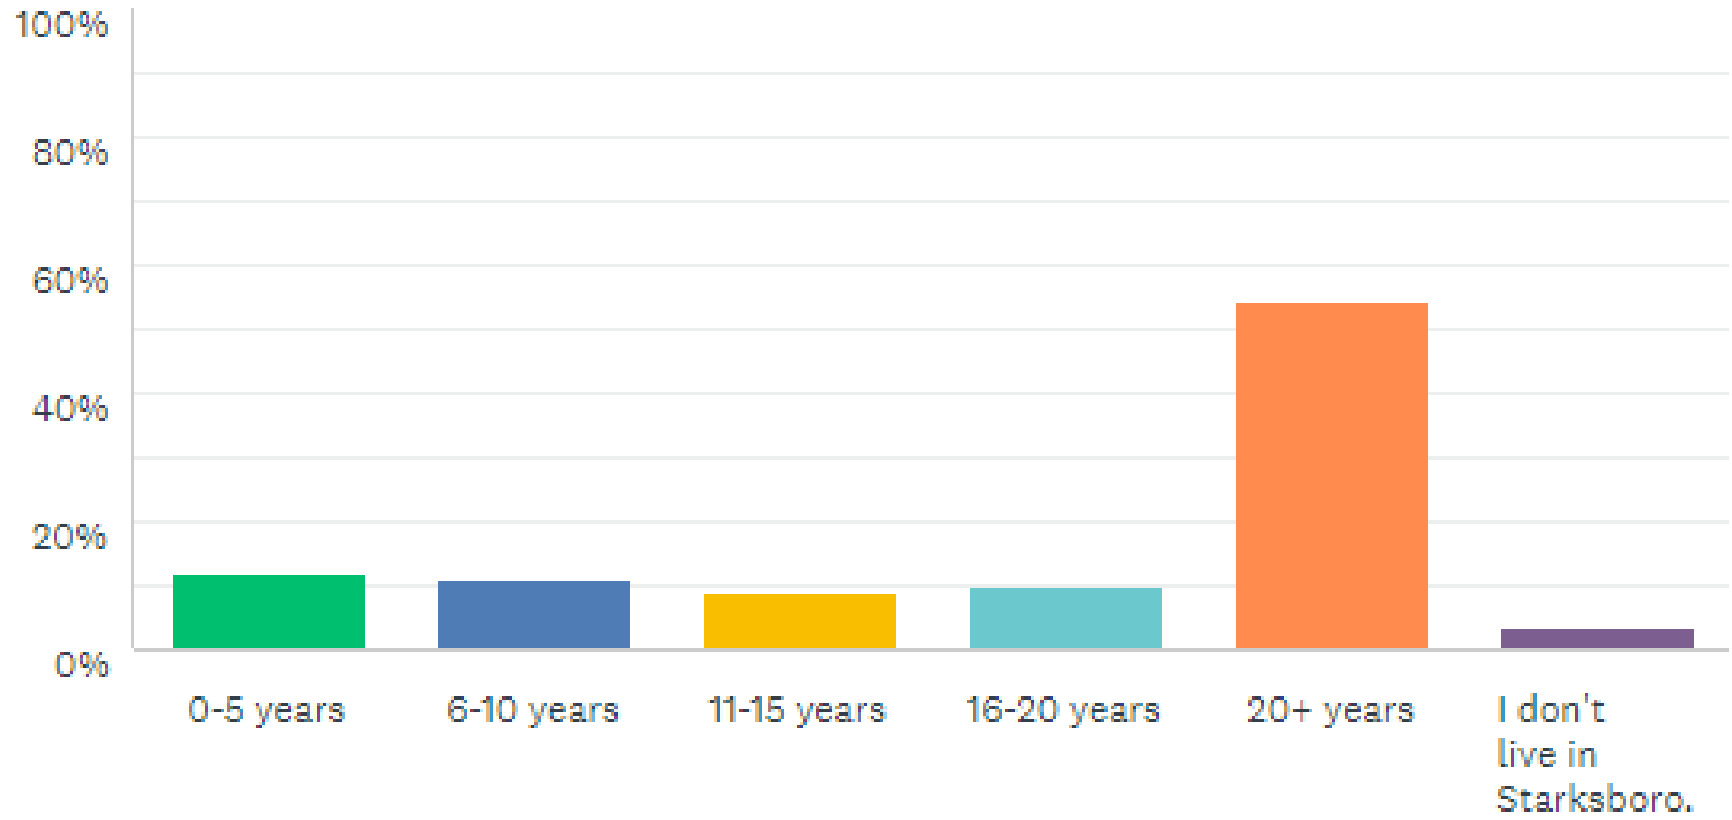

Assistance in the development of the survey was provided under contract with Arc & Arrow Consulting, LLC. The survey was postal mailed to 792 households. The survey was also available to submit electronically through Survey Monkey and was open July 1 – July 31, 2019. During this time two public Listening Sessions were held to receive input from the community as well as to encourage completion of the survey. 153 surveys were completed, 87 online and 66 on paper. The paper surveys were subsequently entered into Survey Monkey allowing for data analysis to include surveys from both formats.

The results of the survey and the community meetings were used by the committee to assist in making decisions regarding community needs and how the project design could respond to the desired functions.

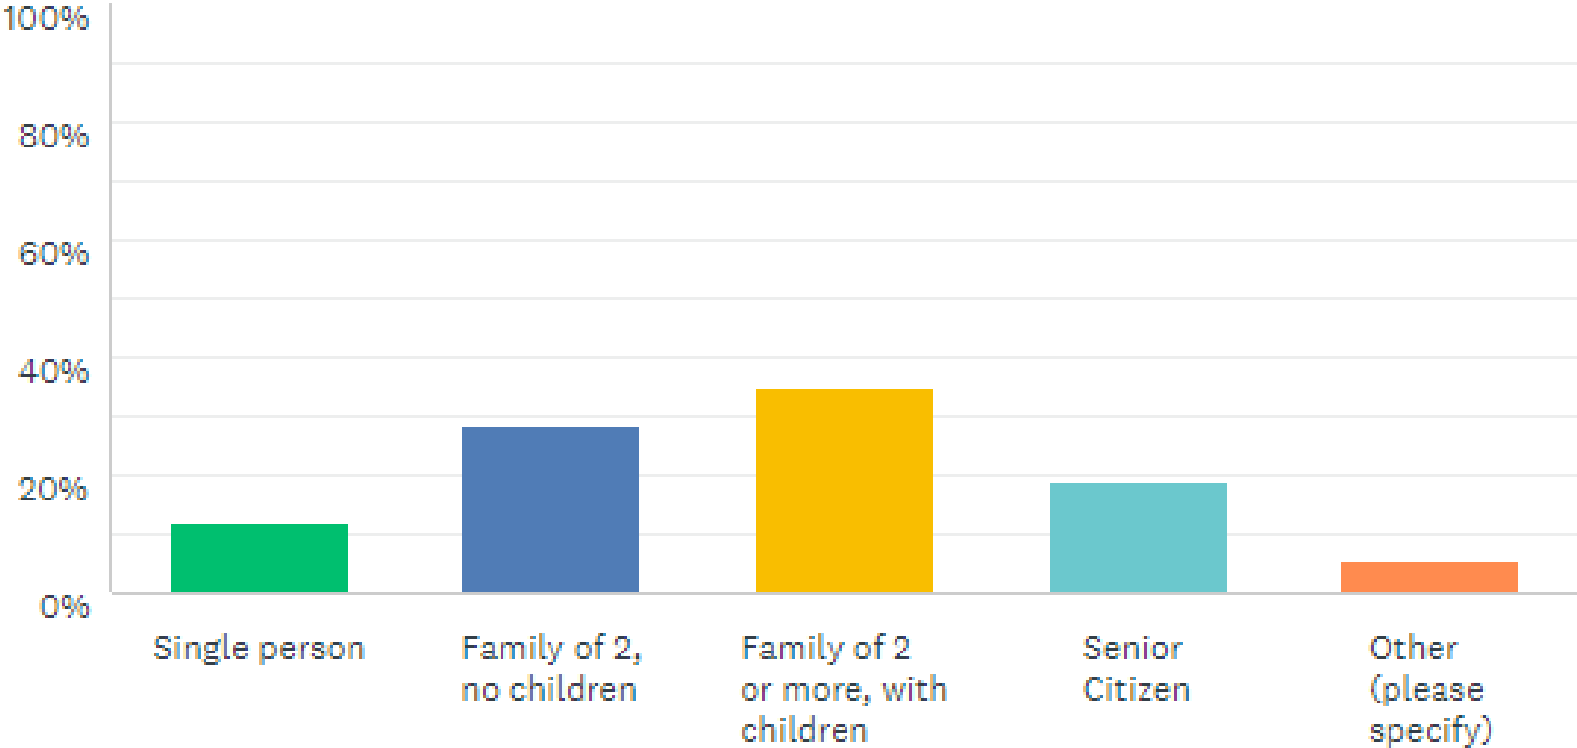

Following are graphs that summarize the survey results. In general, the survey results confirm the assumptions made by the committee in terms of space needs and desired functions as well as the importance to the community of both Fire Station #2 and the Jerusalem Schoolhouse.

A copy of the survey and the accompanying letter can be found as separate attachments.

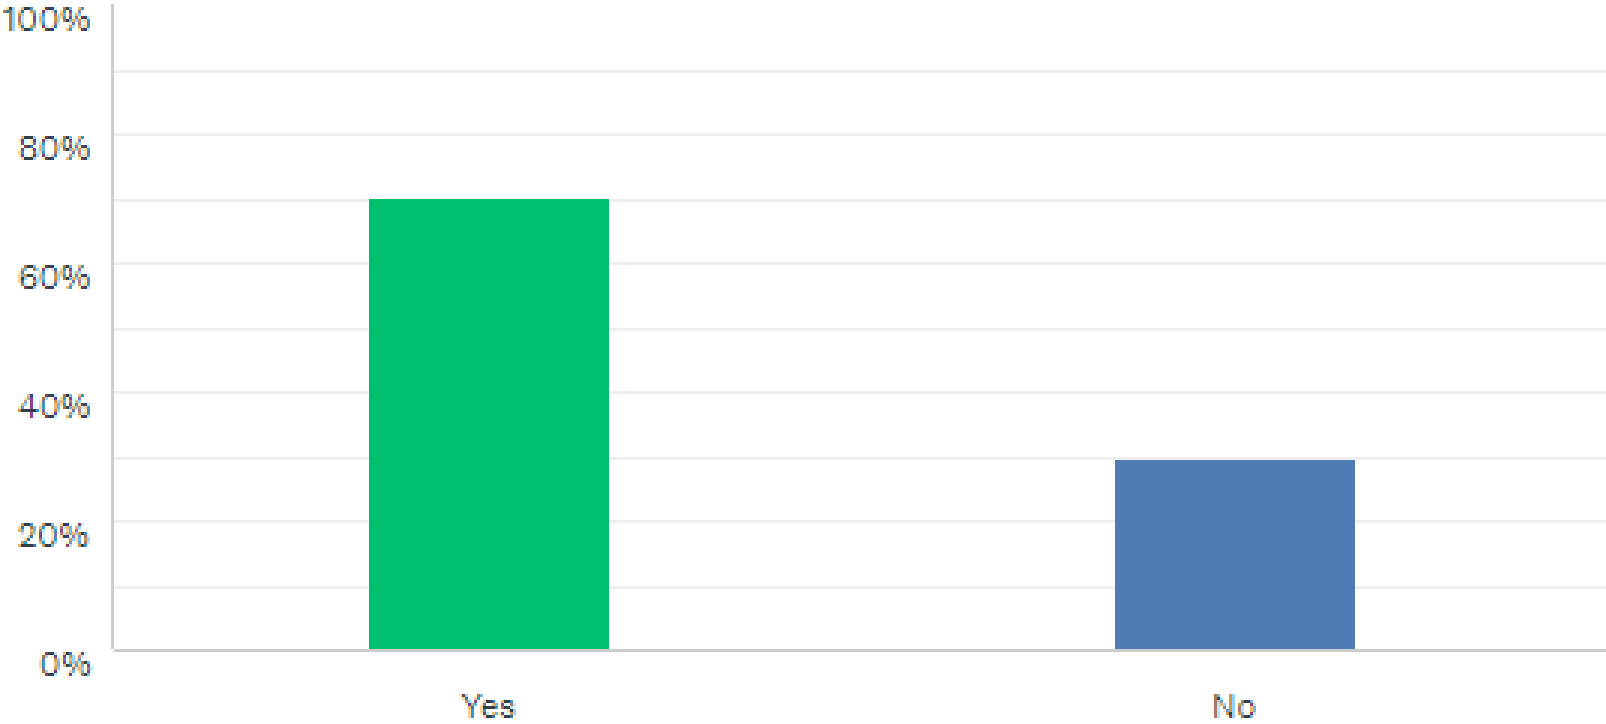

# Years resided in Starksboro

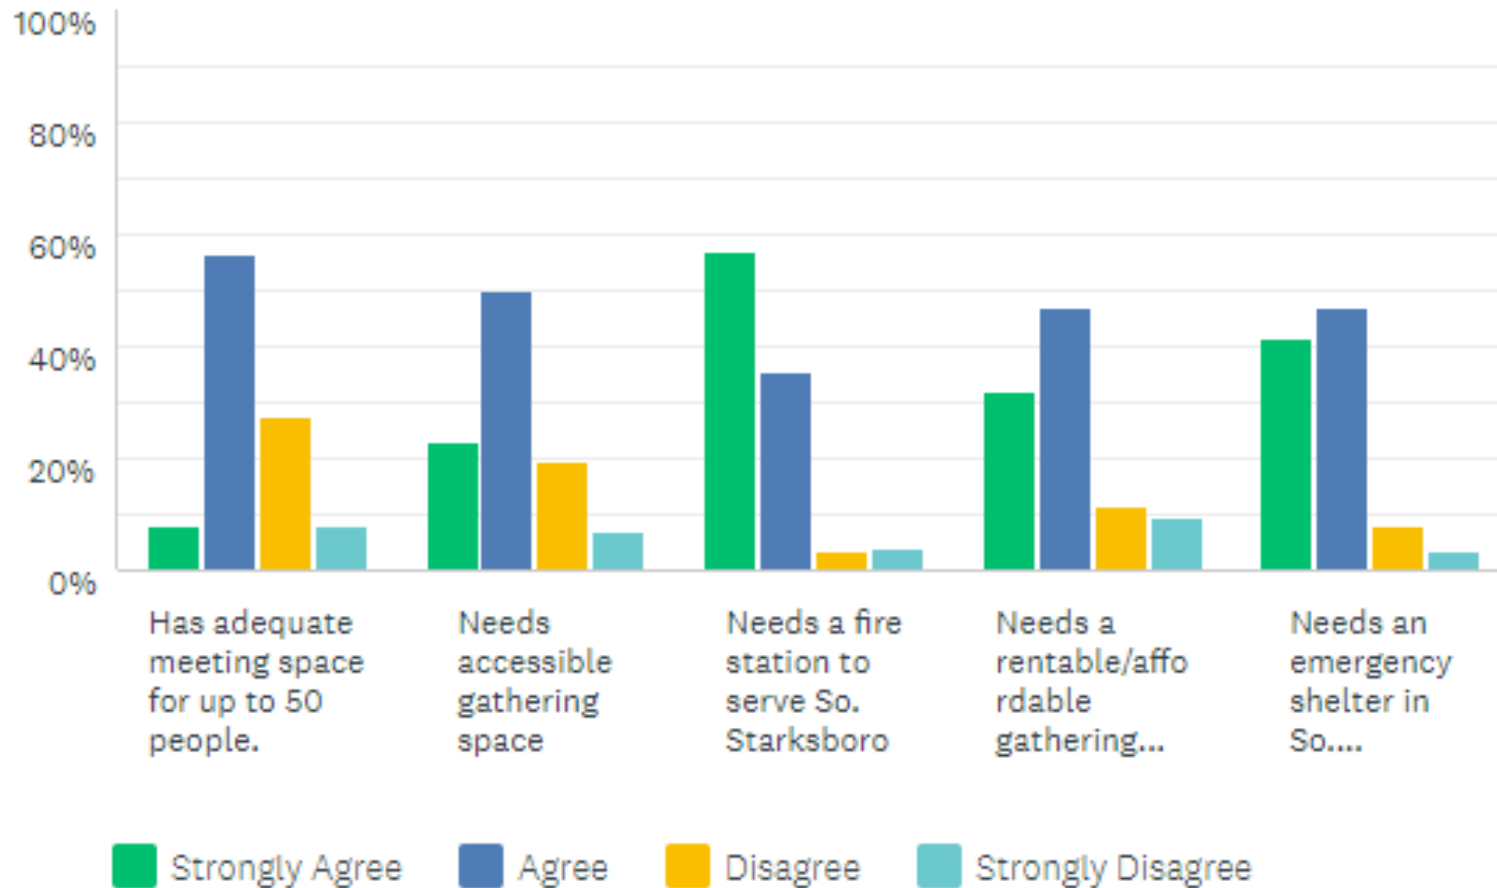

# Household Type

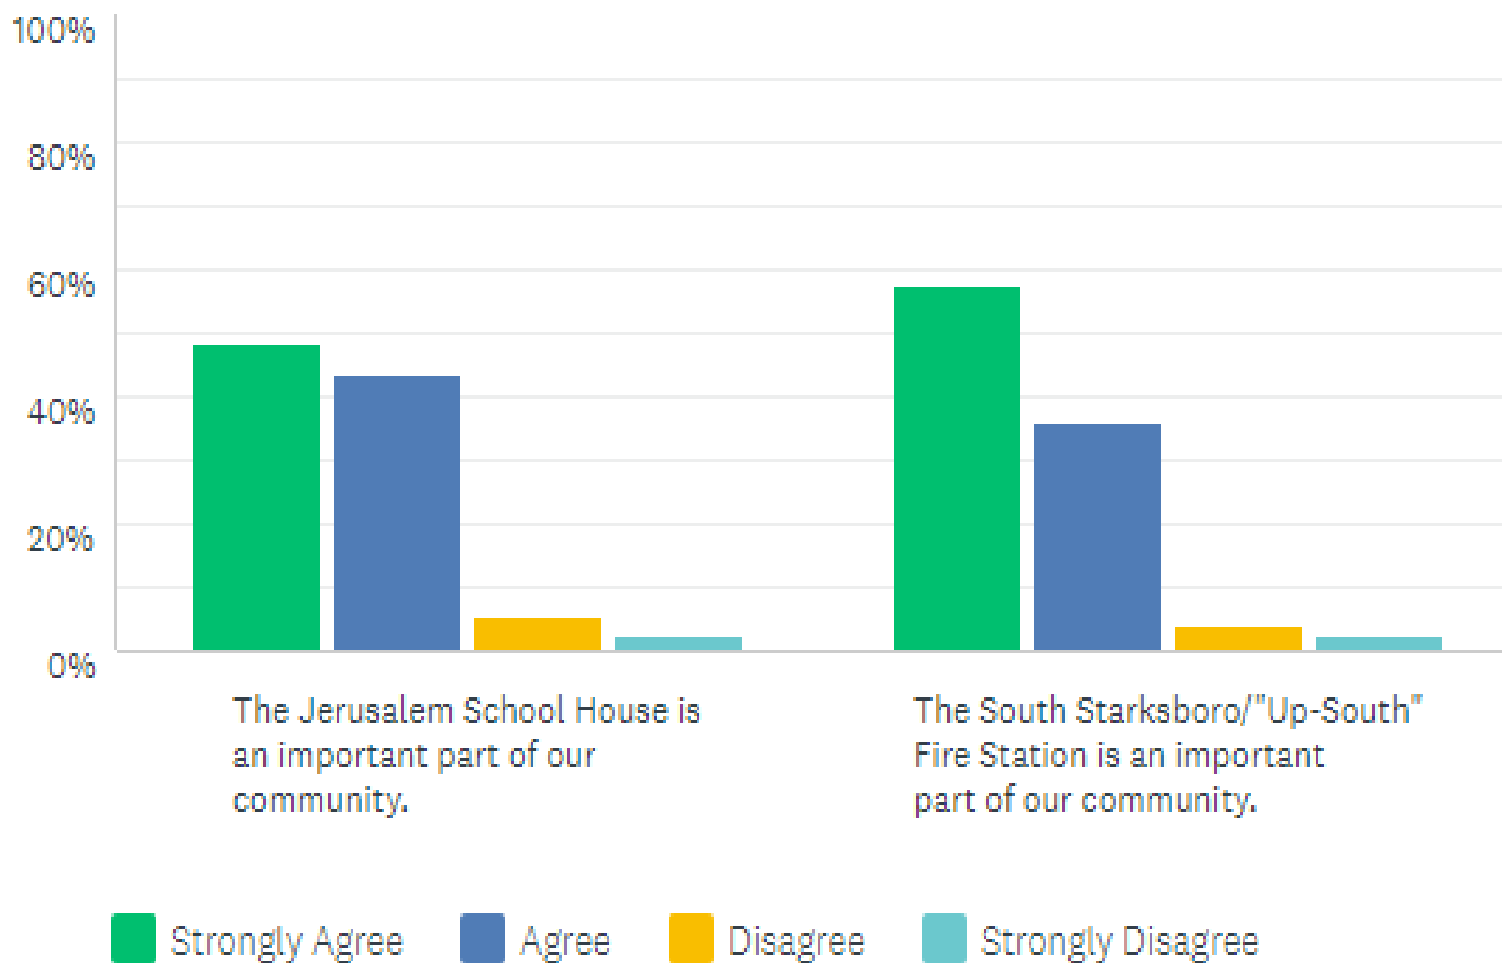

# Have attended event at the Jerusalem Schoolhouse

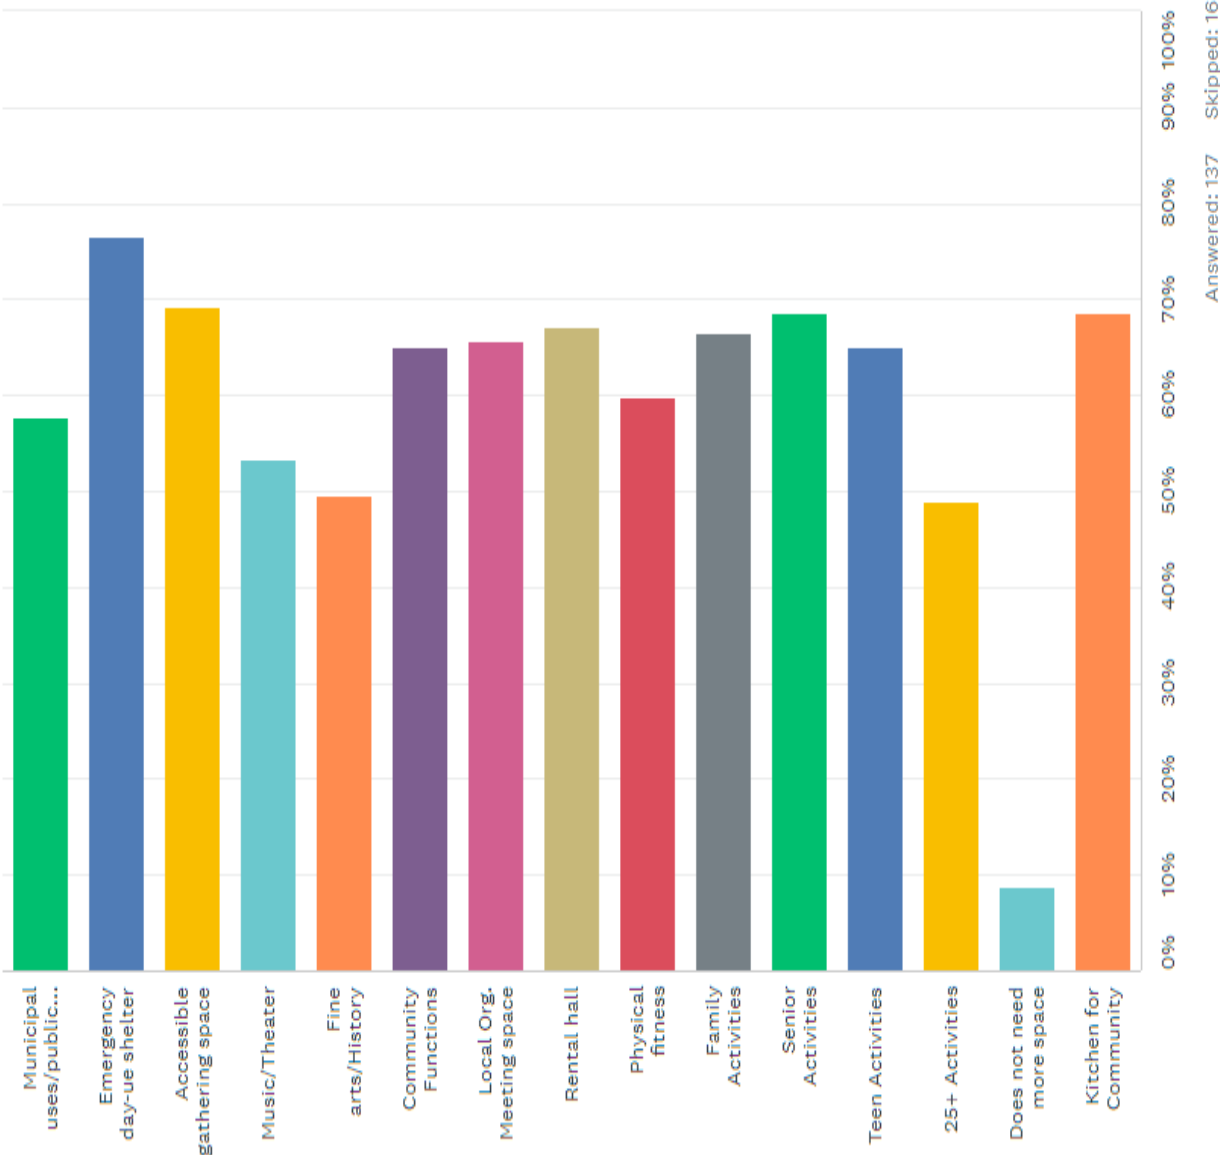

To what extent do you agree or disagree with the following statements:
