

ACRPC Energy Programs and Resources

This document provides a summary of available energy programs and incentives in the region.

Helpful Resources

Program	Description	Link
Vermont Energy and Climate Action Network	Network of town energy committees and supporting organizations. The website has resources for local energy committees (including more exhaustive lists of VT energy programs and initiatives by category) and a list of active committees statewide.	Link
VT Energy Dashboard	Collection of energy planning resources, data, and examples of local energy projects being implemented throughout the state.	Link
Go! Vermont	State of Vermont website with resources and information about energy efficient commuting.	Link
ACRPC Energy Page	Provides energy related resources including the Regional energy plan, funding opportunities, energy maps, and more.	Link

Regional & Local Energy Programs

Program	Description	Link
	Heat Squad is a program of NeighborWorks of Western VT that offers low-cost energy audits for homes and businesses of all incomes. Heat Squad also assists with weatherization project coordination and accessing financing and state energy rebates.	heatsquad.org nwwvt.org
	The Champlain Valley Office of Economic Opportunity (CVOEO) addresses fundamental issues of economic, social, environmental, and racial justice and works with people to achieve economic independence. CVOEO also operates the Champlain Valley Weatherization program offering a variety of services to both homeowners AND renters to improve home energy efficiency and comfort, and to decrease heating bills.	https://www.cvoeo.org/get-help/weatherization
	WindowDressers is a nonprofit organization based in Maine, with local chapters all over New England, that provides low-cost insulating window inserts that are assembled at community build events.	windowdressers.org

State Energy Programs and Incentives

Program	Description	Link
	<p>Efficiency Vermont provides a wide range of energy efficiency rebates for both homes and businesses as well as information on energy efficient products and services. They can also provide virtual home energy assessments, technical support for energy efficiency projects and financing. Efficiency Vermont also maintains the Efficiency Excellence Network which consists of contractors, installers and builders who are trained in energy efficient technologies and services.</p>	efficiencyvermont.com
	<p>3E Thermal provides consultation on energy efficient upgrades to multi-family rental housing in Vermont and assistance with financing.</p>	3ethermal.org
	<p>Button Up Vermont is a program of Efficiency Vermont that offers resources and guidance on home weatherization and reducing energy use.</p>	buttonupvermont.org
	<p>Vermont Energy Saver is a state of Vermont website with comprehensive information about weatherization, energy efficiency and incentives, and how to get started. Essentially a database of programs, incentives, and rebates throughout the state.</p>	energysaver.vermont.gov
	<p>Green Mountain Power offers rebates for electric vehicles, heat pumps, and other energy efficient technologies.</p>	greenmountainpower.com
	<p>Drive Electric Vermont provides information about electric vehicles and incentives and is sponsored by Efficiency Vermont. They also have a map of public EV charging stations throughout the state.</p>	driveelectricvt.com
