

## **Starksboro Conservation Commission October Meeting**

**Saturday, October 26,**

### **Work Day and Business Meeting 12-4**

#### **Creekside Trail and Cota Pavilion**

Draft Minutes by MG

**Members present:** Margi Gregory, Robert Turner, Alice Weston, Jennifer Lovett

#### **Agenda/Discussion**

1. For 2 ½ hours we worked together with seven Middlebury College students, on controlling buckthorn from a portion of the upper trail.
2. Discussion centered around planning for a talk in the winter by Kristen Underwood, who will explain the hydrology and geomorphology underlying our recent Starksboro fluvial event, July 2024. The planning commission was contacted to see if they would like to join us in sponsoring this event. Although there was no response, we will proceed to organize the event with Kristen.
3. Our next work day removing invasive species is planned for Saturday, Nov. 9. The plan is to repeat what we did today at a new site.

**Next Workday:** Nov. 9, Creekside Trail and Cota Pavilion. Tentative date for possible November business meeting, Nov. 25, 6pm

**Adjournment:** 3:30 pm
