

Want to do something about the climate? Start here...

Date: Friday, September 14

Time: 7:00 pm

Starksboro Public Library

Starksboro, VT

Join us for a review of state and local energy policies that will affect the climate, our pocketbooks, and our future.

The program...

- ◆ *What are the key learnings and recommendations of the Governor's Climate Action Commission? What are some of the big-picture directions in state climate policy and how might these affect us locally?*
- ◆ *What's in Starksboro's recently proposed Municipal Energy Plan? What is the purpose of the Plan? Are the Plan's objectives realistic and how might they be achieved?*
- ◆ *What is your local Energy Committee doing and what role can you play?*

The presenters are all residents of Starksboro. *Robert Turner* was a member of the Governor's Commission. *Megan Nedzinski* is an architect and member of the Starksboro Energy Committee, and *Richard Faesy* is an efficiency expert and leads the Starksboro Energy Committee. Local candidates for statewide office have been invited.
